Profile

Innovative Software Engineering Leader with 18+ years of experience leading remote and on-site teams. Proven track record in scaling products, integrating AI/ML solutions, and managing cross-functional teams. Proficient in Ruby, Python, JavaScript, TypeScript, Elixir; skilled in React, data science, and cloud architecture.

Professional Experience

Director of Software Engineering – DataKernel (Remote)
2022 – Present

- Grew engineering into a revenue-driving function; scaled user base and integrated vector-based AI search.

- Led adoption of scalable ML systems and defined long-term AI strategy.

Sr. Engineering Manager – DataKernel (Remote)
2019 – 2022

- Directed engineering operations across US/EU; shaped technical strategy with C-suite.

- Built strong hiring and mentoring processes for high-performing teams.

Founder & CEO – InnovPet (Remote)
2019 – 2022

- Launched an IoT pet care startup; built MVP with MongoDB.

- Oversaw product, fundraising, and global supply chain.

Education & Certifications

- **MBA, Information Technology** – London Business School

- **B.Sc., Computer Science** – University of Edinburgh

- Data Science Specialization – Coursera (JHU)

- Advanced Leadership – University of London
